TECHNICAL SKILLS

- Manual & Exploratory Testing
- Bug Reproduction & Root Cause Analysis
- Test Case Design
- Regression & Edge-Case Testing
- Java, C#, SQL, HTML5/CSS3
- AI Prompt Engineering & Automation
- Blueprint & Schematic Reading
- SAP, Teamcenter, Autodesk Inventor

STRENGTHS

- Attention to Detail
- Zero-Error / Quality-Critical Work
- Process Improvement
- Fast Learner / Self-directed
- Clear Written Communication

Technology professional who builds and tests software end to end: has shipped web apps and Android tools, then verified they actually work under real conditions. Background in zero-error precision assembly and systematic process work brings the same discipline to finding what's broken before a user does.

PROJECTS · SOFTWARE & TESTING TOOLS

WCAG Accessibility Scanner

[Next.js](#) · [TypeScript](#) · [AI-Powered](#) | [wcag-scanner-two.vercel.app](#)

- Built and launched an automated testing tool that scans any website against WCAG 2.2 AA standards, flags real accessibility defects, and explains each one in plain English with an exact code fix.
- Shipped as a subscription product with a free tier, paid Pro upgrade, and exportable audit reports developers use to verify compliance before release.

Android AI Agent Infrastructure

[Kotlin](#) · [Python](#) · [Open Source](#) | [github.com/inoahapro/phoneclaw](#) · [github.com/inoahapro/token_firewall](#)

- Built a two-layer AI agent system for Android: a local LLM plan-cache that learns a task once and replays it at zero token cost, paired with an on-device automation engine (accessibility-driven UI control, screen capture, wake-word voice assistant) that executes it.
- Verified end-to-end behavior across real device conditions before calling any build final; fully open source with documentation and a live demo for each layer.

FilerAI

[AI Document Processing](#) · [SaaS](#) | [getfilerai.vercel.app](#)

- Built a document-filing product for HVAC shops that extracts customer, equipment, and date data from permits, warranties, invoices, and EPA 608 logs, including scanned and handwritten input.
- Designed the search to tolerate real-world input variance like typos and partial names.

EXPERIENCE

Electromechanical Assembler / Tool Crib Manager

[L3 Technologies](#) · [Salt Lake City, UT](#) · ~3 Years

- Assembled precision electronic components built for military-grade communications systems to strict zero-error specifications, verifying every unit against engineering drawings before it moved down the line.
- Managed a calibrated tool inventory of 100+ instruments; restructured the entire tool crib system, cutting retrieval time and eliminating missed deadlines.

Operations & Facilities Manager

[Pinecrest Christian Conference Center](#) · [Twin Peaks, CA](#) · ~2 Years

- Led teams of 10+ staff across Housekeeping, Food Service, and Grounds, coordinating daily operations for a 600+ guest conference facility.
- Owned safety compliance for all recreational operations including zipline and aquatics; managed facility maintenance, upgrades, and retail production.

General Manager / Corporate Trainer

[Little Caesars](#) · [Riverton, UT](#) · ~1.5 Years

- Held full profit & loss responsibility for a high-volume restaurant; managed all hiring, scheduling, and training for a team of 5+.
- Trained and developed General Managers across 6+ locations throughout Utah; rebuilt company training procedures from the ground up.

Data Conversion Specialist

[Harrison Chiropractic & Wellness](#) · [Taylorsville, UT](#)

- Scanned and digitized hundreds of patient records into a new system, checking each record for accuracy; built AI automation workflows that completed the full project 6-8 months ahead of schedule.

Apprentice Electrician

[Hunt Electric / Blackrock Electric](#) · [Herriman, UT](#) · ~1 Year

- Worked in crews of 2-5 completing full electrical installs on 1 apartment or house per day, rough-in through finish, plus live repairs and emergency maintenance.
- All work inspected against NEC code from technical blueprints and schematics; logged 960+ hours toward electrical apprenticeship licensure requirements.

EDUCATION

Salt Lake Community College, Taylorsville, UT

52 Credits toward Associate of Science in Computer Science
[Coursework: Object-Oriented Programming \(Java/C#\), Database Fundamentals, Technical Writing](#)

IEC Utah, Electrical Apprentice Program

Technical training in electrical theory, wiring methods, and NEC code application
